Networking and Community Building Small nonprofit leaders will mix and mingle together to meet other social entrepreneurs working to make a difference in San Diego county. Refreshments are provided by the hosts.

Meet the Experts Representatives from local philanthropic infrastructure organizations, such as San Diego Grantmakers and Social Venture Partners, will be in attendance to help provide resources and connections with more established service organizations.

Tiny Opera House was created in January 2018 to make it easier for passionate and creative individuals to manage small nonprofit organizations. They offer a variety of free trainings and one-on-one consultations for small nonprofit leaders, along with the easiest – and cheapest – software solution for running small and startup organizations. Their remarkably simple and intuitive management platform is helping small nonprofits across the country save time on their admin so they can spend more time on the mission work that really matters.

"This Tiny Opera House financial management software is an answered prayer. This has truly relieved the stress of being in compliance as a startup nonprofit." - Calandra M. Williams, Majestic Daughters Empowerment
